

## G210A VERIVIDE COLOR ASSESSMENT CABINETS

For the visual assessment of colour under controlled, standard light conditions. Cabinets incorporate a digital control panel, which includes features such as auto sequence, servicing indicator, warm up, power save, data recording and optional dimming. The new look control panel, is also ergonomically designed to allow the user more comfort. Illuminants can be chosen as follows:

- D65 VerVide ""Artificial Daylight"" fluorescent lamps conforming to Standard Illuminant D6500.
  - D652 Additional level of ""Artificial Daylight"" for colours of low reflectance factor.
  - TL83 & 84 Philips Triphosphor fluorescent lamps. Often chosen as a ""Point of Sale"" illuminant.
  - F Filament (domestic) lighting and as a test for metamerism.
- UV Ultra Violet light to reveal the presence of fluorescent dyes and bleaches.
