

## Remote Instrument Monitoring Application

Through the revolutionary RemoteAccess, operators can now track the real-time testing progress of instruments anytime, anywhere, on the go. No longer confined to laboratories during long tests, operators can now view remaining testing time against the end of a test, giving them good grasp of the testing status with a glance of the RemoteAccess App.

Currently for use with Launder-Ometer, RotaPill and Martindale

# Track a Test's Progress while on the Go

Available on iOS  
and Android

Receive alerts for tests nearing completion

## Features

- Connect to a wide range of instruments, currently pair with Martindale, RotaPill and Launder-Ometer
- Pop-Up message to notify operators 5 minutes in advance of the end of the test
- Optional notification sound and/or vibration alerts
- Stay connected anywhere with any available instrument of your choice
- Available on iOS and Android and will connect to more instruments soon

Providing confidence in standard based testing through expertise and global partnering
